

Research Proposal.

(2) Goals (What)

- overall goal/Aim. → using one sentence
- specific objectives (research questions)

must
be
coherent

under the overall
goal.

Compare your new development with existing methods (LCS/XCS).

2. Literature Review .(Why)

(1) Background.

[general knowledge]

- (2) Related work. of LCS/XCS. (Why: more details about motivations).
- [specific knowledge] • one para for one paper.
- structured format.

3. Work done so far.

your new method.

your results

initial observations/conclusions.

4. Research Plan & Proposed contributions.

(1) Detailed plan.. using a table/figure.

including very detailed schedule for the next 6 months

(2) Thesis outline

(3) Proposed contributions

(4) Resources :-
