Visualization Sketching Exercise

- Sketch a **visualization design** from this data on paper:
 - <https://tinyurl.com/swen422-2025-infovis>
 - Create a visualization on anything you want:
 - What interests you in the data?
 - What questions do you have?
 - Who is the target audience?
 - What can you learn from the data?
- **Challenge:** Try to encode as many **visual variables** as possible in your visualization.
- **Tip:** we are expecting you to do this exercise for Assignment 1 (Group Project).
